

# SHOT UP OF PASSIVE INCOME BY WEARABLE DEVICES

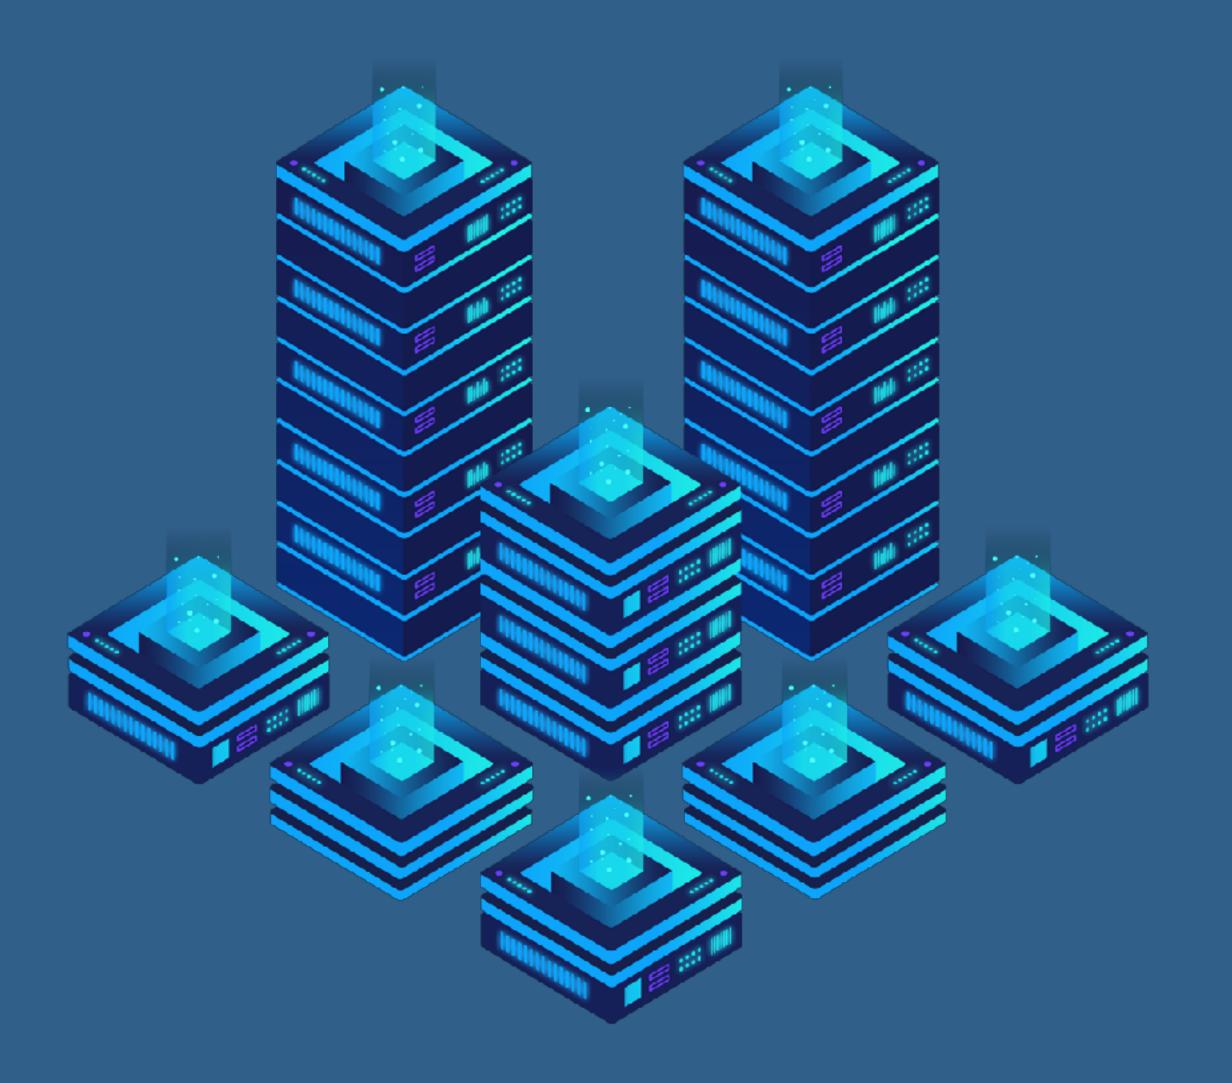

EARN FROM YOUR BIODATA THANKS TO THE BLOCKCHAIN

© 2020 VYVO™

VYVO

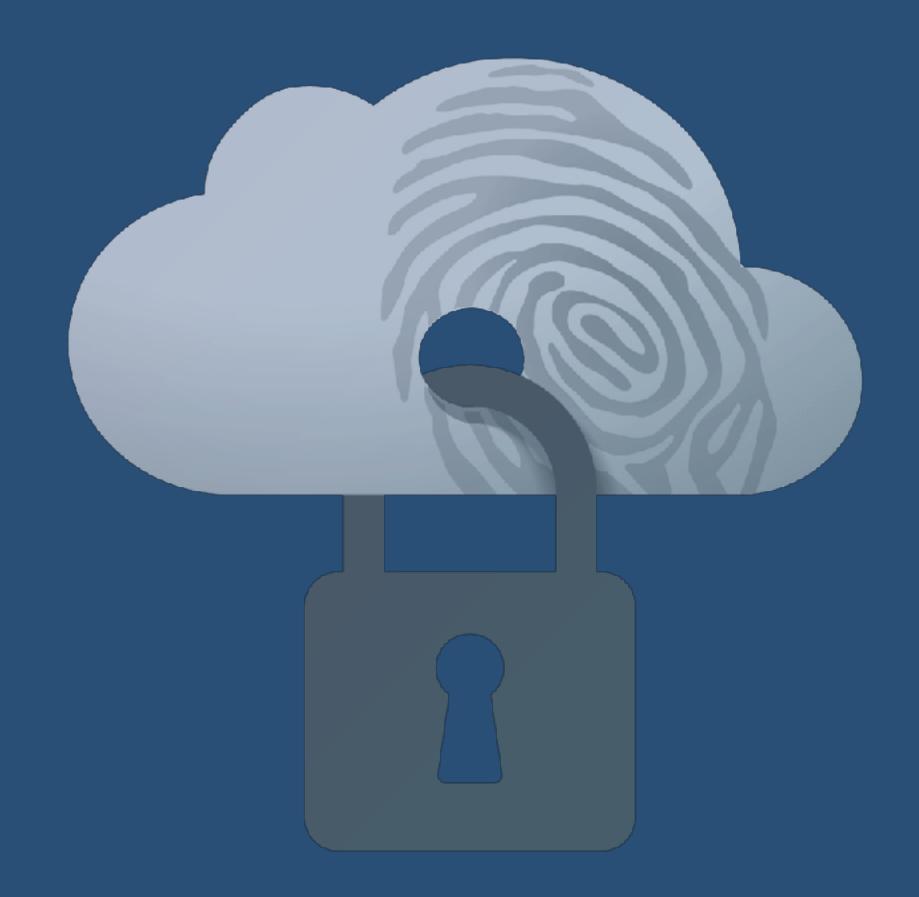

### THE BIG DATA OPPORTUNITY

Our database is rapidly becoming one of the largest, most diverse, multi-country, permission granted, bio-databases in the world, with over 20 million data points being added every month.

Commercial entities are willing to pay for access to this data for new product development, testing, and research purposes.

## VYVO TOKEN RADICALLY INNOVATES THE SECTOR

Biometric data can be exchanged between a data producer (VYVO users), Researchers, Universities, Hospitals, and Companies active in medical and scientific research.

It all happens on the Ethereum blockchain with maximum security.

### VYVO<sup>™</sup> TOKEN

The Token is a digital asset that powers the ecosystem of the project in various ways.

It has been designed to facilitate and create value to the data exchange; it rewards the VYVO device wearers that contribute to generate the anonymized biometrics data.

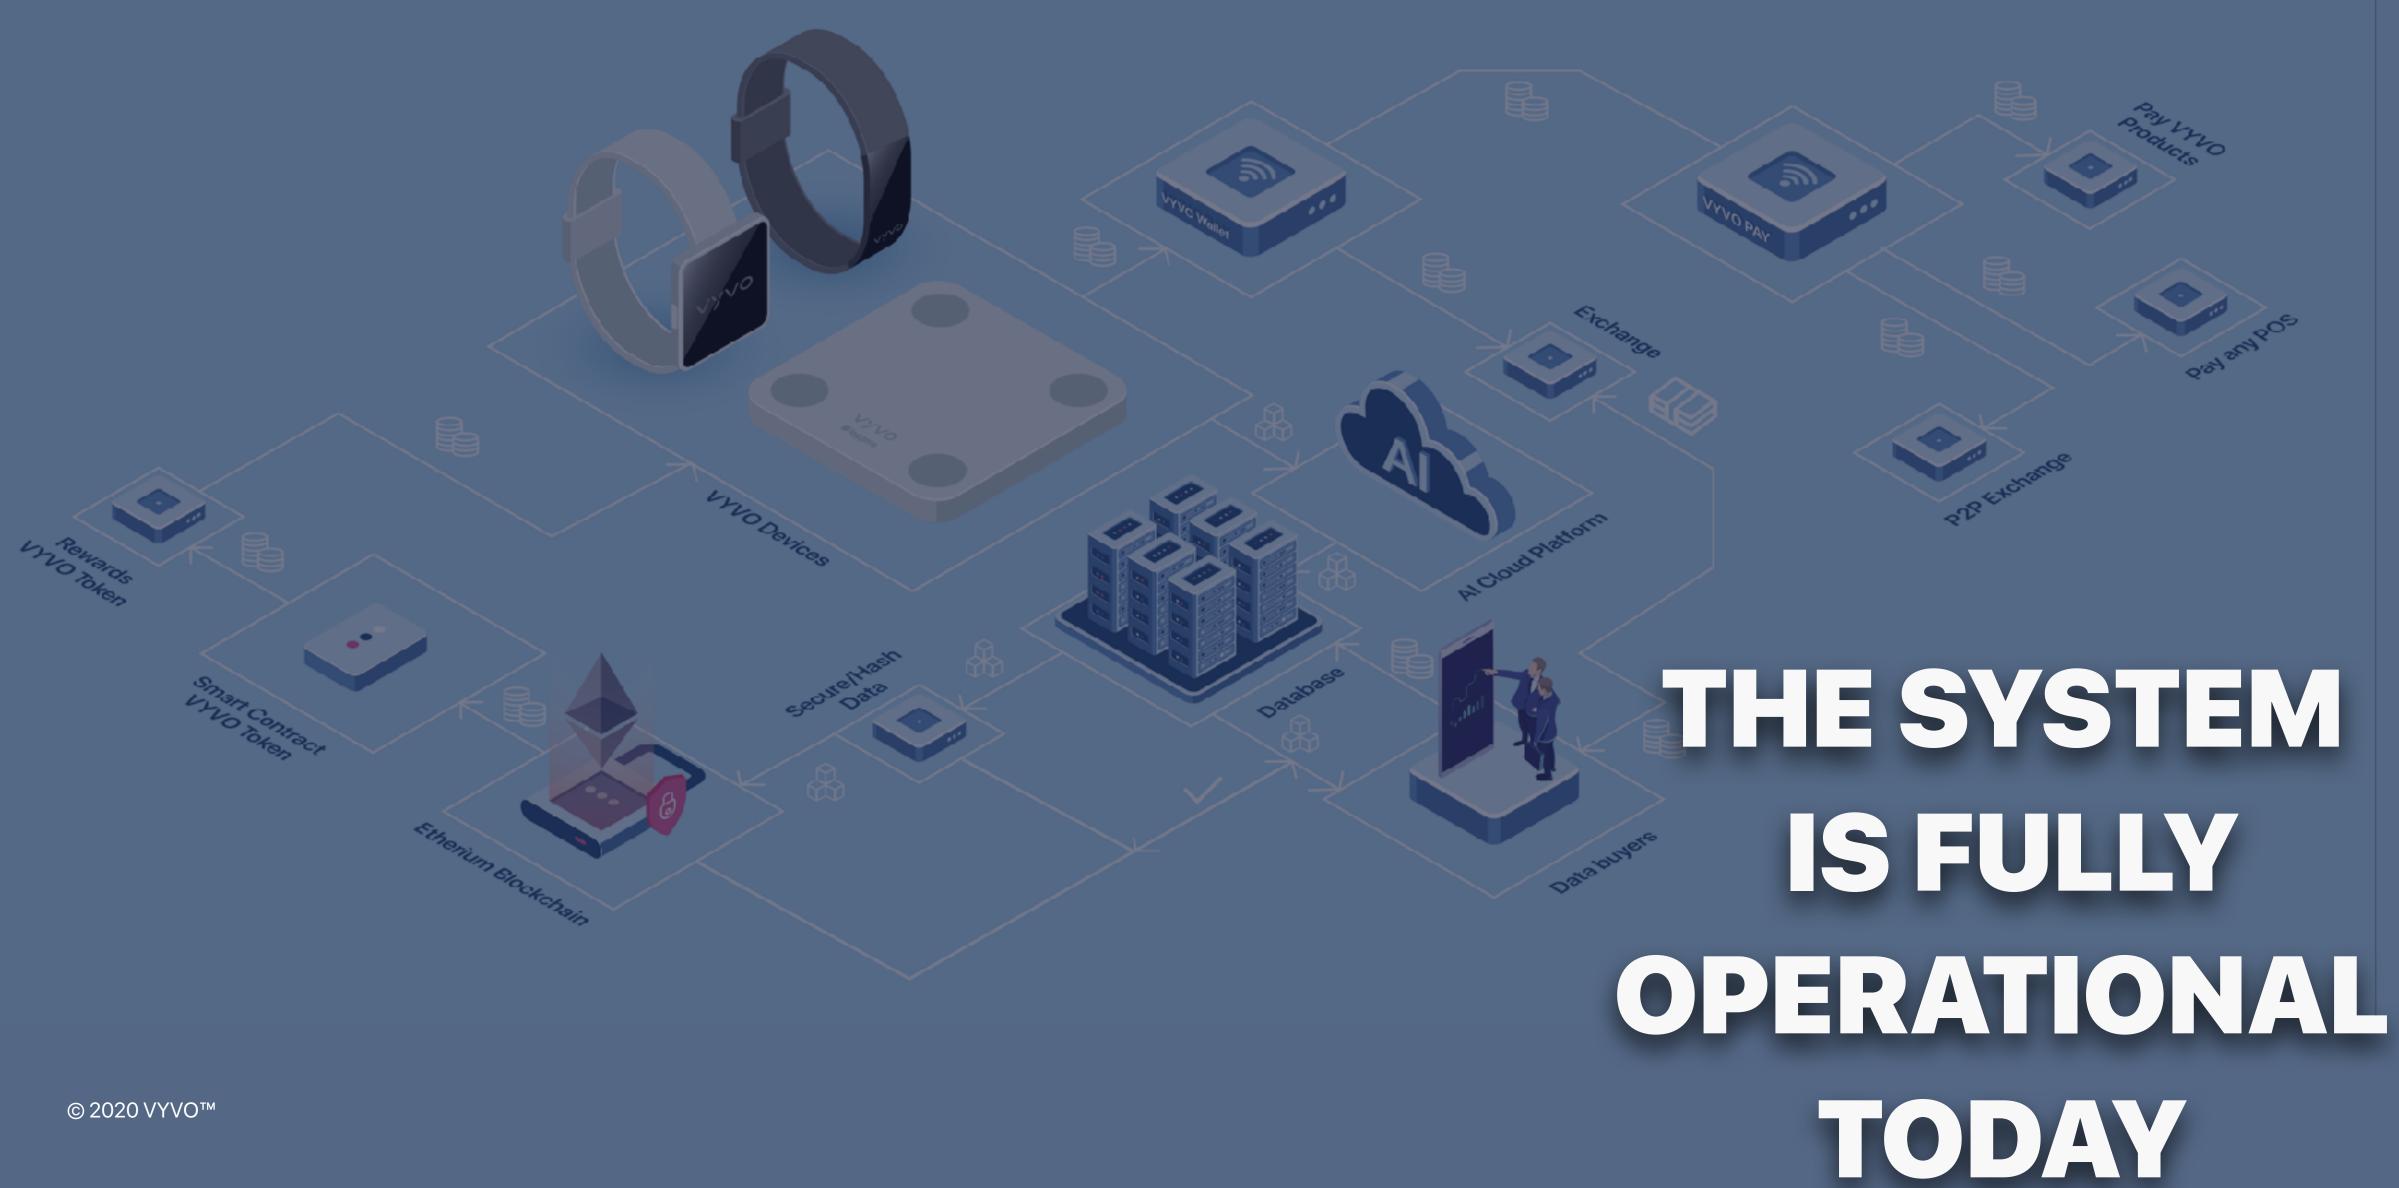

# UTILITY TOKEN VS. SECURITY TOKEN TOKEN

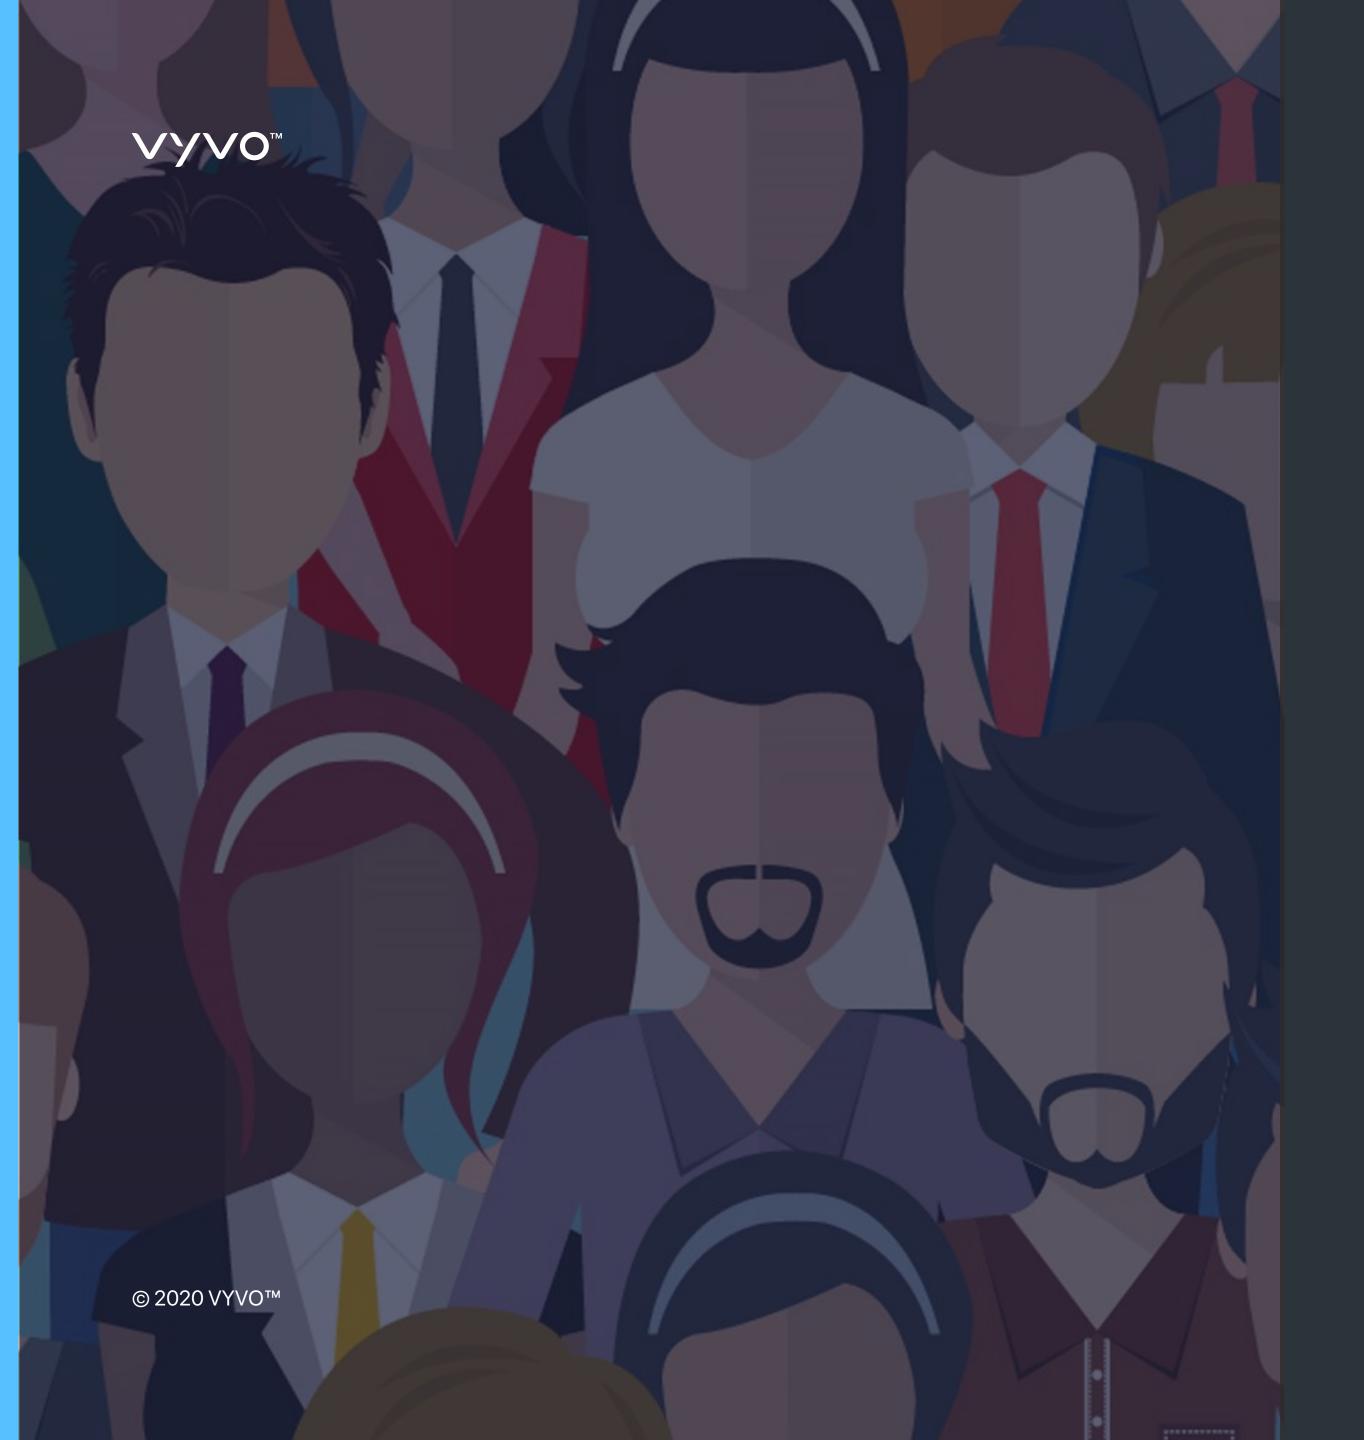

a security, we are NOT making ANY ICO or fundraising for our company, but we are using the token as a way to reward our members for participating into the VYVO A.I.

Big Data crowdsourcing project. This is allowing us to use their anonymized data, produced by their VYVO wearable devices.

That means you cannot buy the tokens from the company or make any investment in the tokens; you will be able to use our Utility token to buy VYVO products and services or to exchange them into traditional currencies.

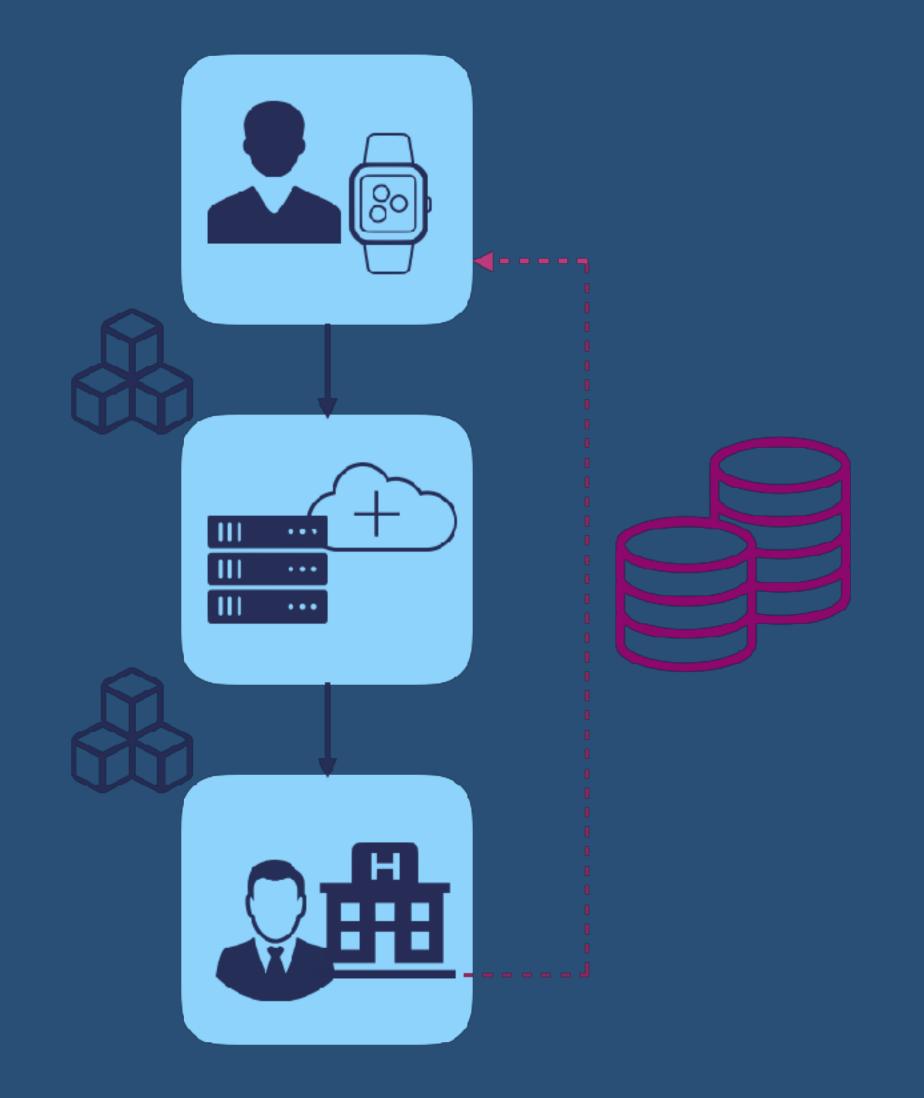

Millions of people around the world are building the Largest Big Data A.I. platform, completely based on and secured within Blockchain technology.

AND THEY ARE ENJOYING THE ECONOMIC BENEFITS.

### THE REWARD SYSTEM

- The VYVO Smart App collects the biodata from devices, anonymizes it, and adds them into a database.
- 2. Successively the measurements are secured on the blockchain where blocks of data are hashed periodically. For a variable number of blocks, one token will be assigned to the users, and each block is generated from a variable measurement number\*.
- 3. Users can accumulate the token in an ERC-20 utility token wallet, and they can exchange either in a centralized and decentralized platform.

### OCT (ORIGINAL CREDIT TRANSACTION)

THANKS TO THE OCT PAYMENT METHOD, NOW INTEGRATED WITHIN THE VYVO WALLET PLATFORM, THE REWARDS GENERATED CAN EASILY BE TRANSFERRED AND USED FOR ANY PAYMENT WORLDWIDE.

# GET THE BENEFIT OF OCT PAYMENT METHOD.

- Transfer Tokens electronically to Visa, MasterCard or China UnionPay credit & debit cards worldwide;
- Transfer funds electronically to cardholders;
- Recipient receives funds faster than typical international wire transfers & cheques;
- Convenient & flexible;
- More reliable.

# HOW TO WITHDRAW YOUR REWARD TOKEN
