

## **vista+**

THE MOST ADVANCED  
HEALTH AND  
WELLNESS SMARTWATCH

# 1. VISTA TO THE NEW LEVEL

VYVO Vista+ is the new VYVO Smartwatch born from the desire to combine all the best features in the first generation of VYVO devices into one, to provide you the ultimate daily companion.

Following the philosophy to maximize effectiveness and simplicity, Vista+ represents a significantly elevated vision of what a personal monitoring device must accomplish.

Cutting-edge new sets of Clinical-Grade Sensors that are capable of conducting ECGs. These High-Frequency Sensors allow the new smartwatch to receive precise PPGs, which it then takes the high-quality and accuracy of the measurements to a whole new level.

Vista+ empowers you to continuously monitor your most important vital signs and parameters, in real-time.

If something requires your attention, Vista+ will notify you. With Smart Alert functions and Vibration/LED for Guardian Alert, Events, Alarm, Medicine Alert, and other Customizable Alerts, you can be on top of your daily health, while hardly noticing it.

**Maximum simplicity and effective results are the purposes of Vista+.**

OS System	Vyvo RTOS 2.0	Multi Sport Mode	17+ sports
OpenAPI	3.0	Smart-Track	✓
TFT Color screen size	IPS 1.3"	Off-hand detection	✓
Capacitive Full Touch	Full touch control	Sleep Monitor and analysis	✓
Resolution	240x240	Atrial Fibrillation	✓
Battery Life	10+ Days 10 hours in GPS	Pulse Wave Diagnostic	✓
Charger	wired base	Measurement Warning (Guardian)	✓
Metal Case	✓	Continue Measurement and recording	✓
Water Proof	IP68	ECG AI Analysis	✓
BLE	BLE 4.2	Smart Alert Vibration	✓
GPS GLONASS	✓	Sedentary reminder	✓
Number of kinetic axis	6	Air Quality Monitor - PM2.5, PM10, SO2, NO2, CO, O3	✓
ECG/EKG Sensor	✓	NFC Vyvo Pay*	✓
BP Sensor	✓	Swimming pool stroke count and pool distance.	✓
Dynamic HR 24hours	✓	Color Run	✓
Heart rate zones detection	✓	BlockChain Technology	✓
HRV - Mood, Energy Meditation	✓	Messages and Social Push	✓

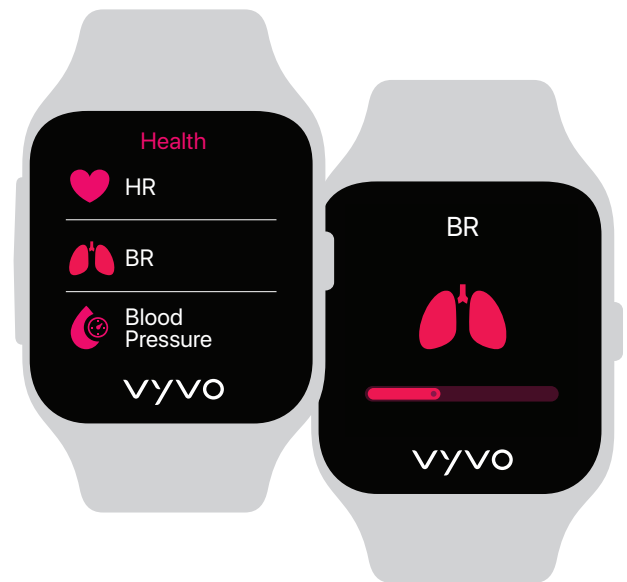

## 2. KNOW YOUR HEALTH AND KNOW YOURSELF.

Wearing Vista+ every day allows you to have a seamless and continuous monitor, that records and analyzes resting and exercising heart rates, Blood Pressure estimation, breath rates, and energy levels.

### 24/7 BIOMETRICS RECORDING

VISTA+ can continuously and seamlessly monitor your Biometrics around the clock, 24 hours a day. With Real-time transmission of recording and advanced algorithms to clean your heart rate signal and analyze your data continuously, you can rest comfortably knowing that all your vitals are being analyzed and stored safely.

### MOOD AND ENERGY MONITORING

Do you want to know your physical state and mood today?

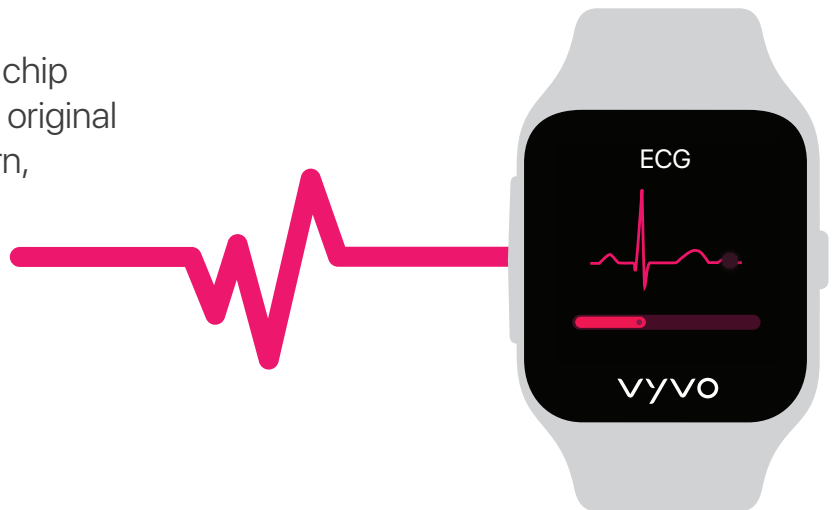

VYVO Vista+ monitors your Energy level and disposition by analyzing your Stress and Mood levels.

## ECG MONITORING

Vista+ uses a high performance ECG chip Technology which accurately collects original Heart signals that enable Cardio-Learn, a neural network algorithm.

A.I. analysis is able to detect 5 different types of arrhythmia.

## CONTINUOUS ATRIAL FIBRILLATION DETECTION

Vista+ uses PPG technology with high frequency sampling to collect an accurate pulse waveform, which then is subject to detailed data analysis and processing using medical algorithms to identify potential atrial fibrillations.

## DYNAMIC HEART RATE MONITOR AND HRV ANALYSIS

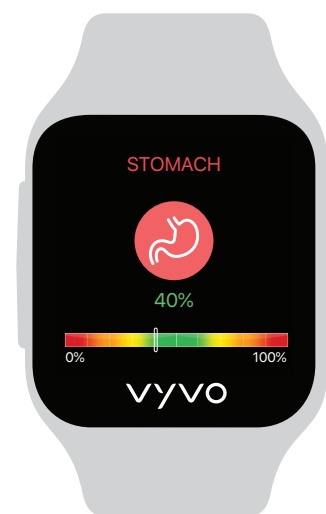

Indicates your heart rate range and fatigue status, and detects critical abnormalities.

- Real-time dynamic and continuous heart rate with atrial fibrillation detection.
- Heart rate zones.

## BIAN QUE'S PULSE WAVE DIAGNOSTIC

Check your organs status continuously and understand the actions to take to improve your daily lifestyle.

This feature is based on a unique diagnostic approach of Traditional Chinese Medicine, examination of twelve meridians: a method to choose an emerging or relatively emerging pulsating vessel that is exemplifying or easy to be inspected, among the twelve meridians and the Bian Que's exclusive pulse examination of the inch opening (wrist pulse). The result of the Diagnostic is for personal evaluation only and cannot be used as clinical diagnostics. Diagnosis can only be conducted by medical personnel or physicians.

Ref. <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC3942893/>

**\*The Pulse Wave Analysis function is only available by using an Android OS device.**

## AIR QUALITY MONITOR

Vista+ utilizes a superb network of public air quality sensors along with Artificial Intelligence Analysis to inform you of the Air Quality Index (AQI) of your surrounding environment.

Protecting your long-term health and decreasing your risk of lung and heart disease is made easier when you can reduce your exposure to Poor Air Quality.

### 3. YOU CAN NOW EXCEED YOUR LIMITS!

Vista+ Accurately track all-day activities like steps, calories burned and standing time, and the vibration alert motivates you to move when you've been sitting too long.

#### +17 EXERCISE MODES

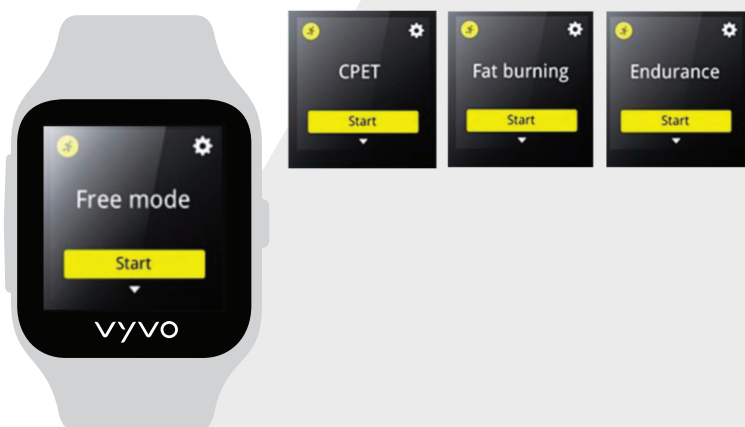

To use according to different goals and measurements.

You can set it to Swimming, Running, and many other modes to see real-time stats while you exercise. With Smart-Track, it detects what activity you are performing.

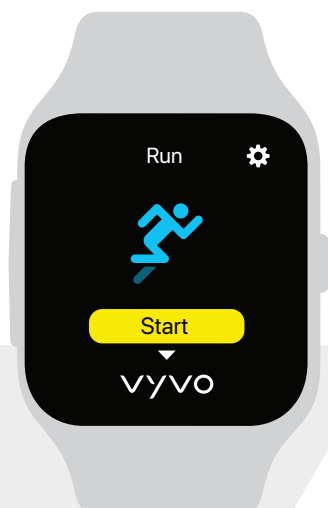

#### 7 RUNNING MODES

Freestyle, distance mode, duration mode, energy mode, fat burning, endurance and CPET (Cardiopulmonary Exercise Test).

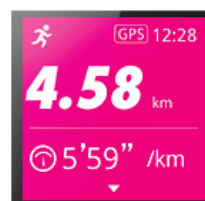

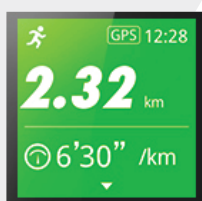

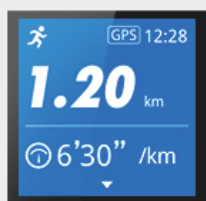

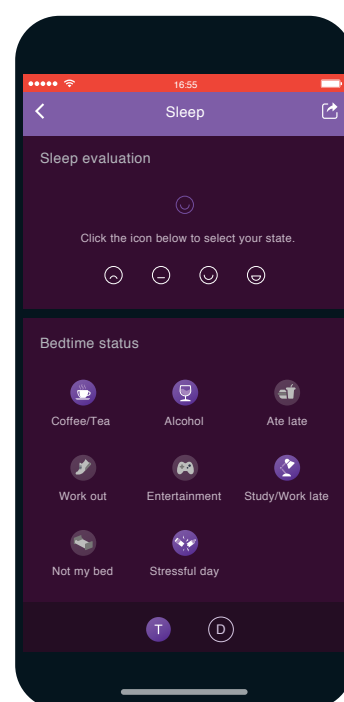

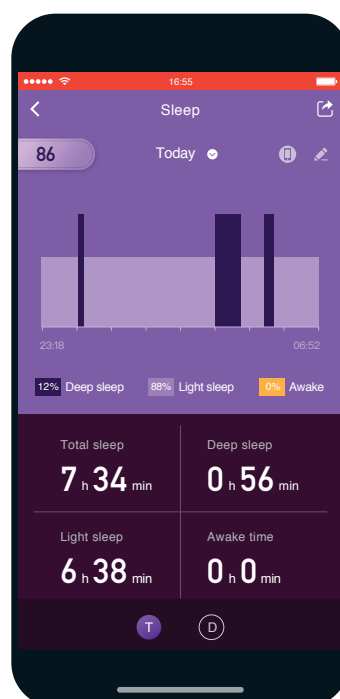

## COLOR-RUN

The screen lights up with cadence with your pace, and the color display will change based on your heart rate value. Make your running safer, interactive, and more fun.

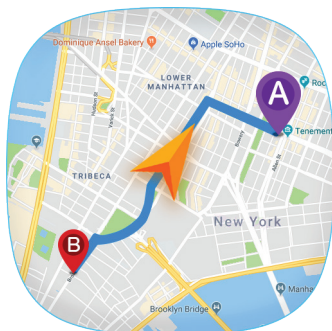

## SCIENTIFIC ASSESSMENT OF SLEEP QUALITY ANALYSIS.

Vista+ can track time in light, deep and waking stages of sleep, giving you further insight about your sleep quality, which affects your overall health.

## 4. TOP OF THE VYVO TECHNOLOGY

### BUILT-IN GPS

Record and track your activity without a phone connection.

### 10 DAYS+ BATTERY LIFE

- Activity tracking mode: 10+ days tracking;
- GPS mode: up to 10 hours;
- Full recharge in 120 Minutes;

### IP68 SWIMPROOF

With waterproof IP68 (50m), you can wear your device and swim whether you are in a pool or open water.

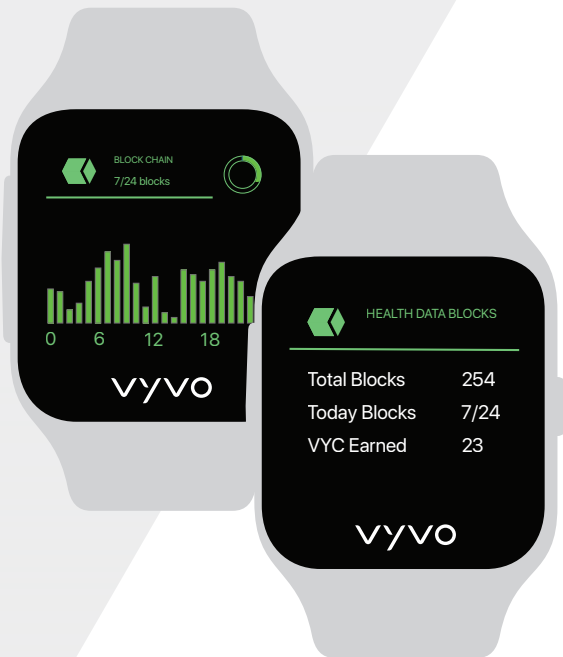

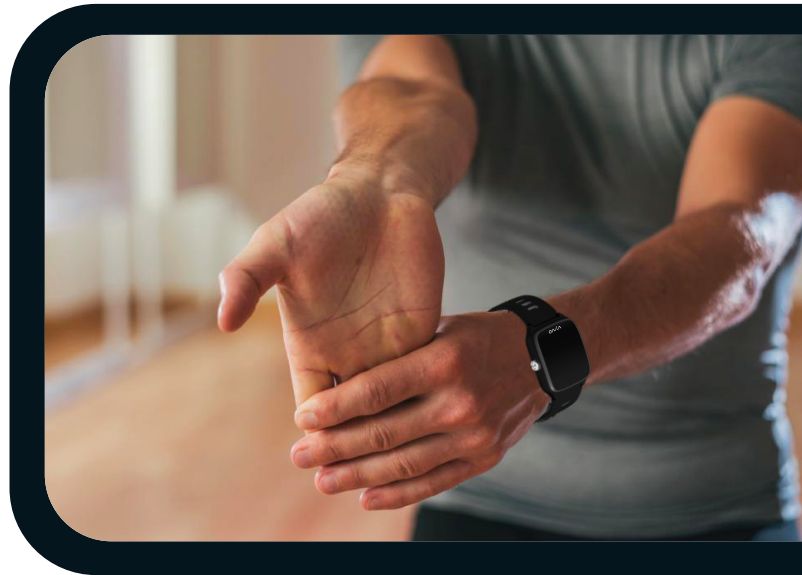

The water resistance performance of the device is not permanently valid; it may diminish as time passes. The device can be used during washing hands, rain or swimming in shallow water, but not support for hot water showers, diving, surfing, etc.

## SMART ALERT AND GUARDIAN

Help Vibration alerts notify you of running prompts, activity tracking milestones, and various smart notifications, like a reminder to take your supplements or medication. Smart Warning alerts you with a vibration when your bio-parameters: HR, BP are out of range.

## VYVO BLOCKCHAIN TECHNOLOGY

VYVO secures data using Blockchain Technology.

- Using your VYVO VISTA+ every day maximizes your wellness, fitness, and health while also enabling you to get rewarded for the data-blocks your device produces during the time it's on your wrist.
- Your secured Blockchain data forms part of creating the first worldwide Blockchain Health platform for data exchange in the Healthcare and Medical research sector.

## VYVO PAY TECHNOLOGY

VISTA+ is equipped with an NFC contactless payment capability to pay at any Wireless Point of Sale easily. Easy, Fast, Secure and convenient, no need to carry your wallet or cards to make payments when you are shopping.
